

Amendment to the Abstract

Please replace the abstract with the following:

The invention relates to novel insecticidal active compound combinations ~~comprising of~~, firstly, ~~anthramides~~ anthranilamides (group 1) and, secondly, further insecticidal active compounds selected from the group of the (thio)phosphates (group 2) and/or the group of the carbamates (group 3), which combinations are highly suitable for controlling animal pests, such as insects.
